Rhonda Hribar
201 5th Street
Walsenburg, CO 81089

Dear Ms. Hribar

I received notification from you regarding a bed bug issue that was noted at Peakview School on February 20, 2018. It is my understanding that the school nurse verified that one bed bug was found on a student at the end of the day. A letter was sent out to the parents of all students advising them of the situation and also some guidance on bed bugs.

In response to your notification, I conducted an inspection at Peakview School on February 22, 2018 to verify whether there was any evidence of bed bugs. After examining the classrooms and library, no bed bugs or signs of infestation were noted. I advised the staff to disinfect the seating and table areas of these rooms and keep them vacated until Monday February 26, 2018.

Thank you for contacting me regarding this situation, please contact me if you have questions.

Respectfully

Robin Heupel, REHS
Environmental Health Specialist III
